

## RP Presents: Neuroimaging of COVID-19

As the COVID-19 pandemic evolves, radiologists, neurologists and infectious disease experts continue to learn more about the neurological findings associated with infection. On August 18, 2020, RP hosted “RP Presents: Neuroimaging of COVID-19.” During this free, CME-eligible, interactive webinar, Dr. Joshua Hirsch from Massachusetts General Hospital, Dr. Amit Mahajan from Yale University and Dr. Jennifer Hill from Radiology Partners, offered insights and case presentations on neuroimaging of COVID-19.

CME Instructions: Please note there are two sets of instructions — one for those who attended the live webinar, and one for those who attend the recorded version. Please choose the instructions that apply to you.
