

[Study: Multicenter evaluation of survival and toxicity in hepatocellular carcinoma patients following radioembolization treatment](#)

Interventional radiologist [Dr. Justin Lee](#) of RP contributed to a study on the survival and toxicity in hepatocellular carcinoma patients in a multicenter, real-world data registry using transarterial radioembolization with resin microspheres. The study was published in the *Journal of Vascular and Interventional Radiology (JVIR)*.

Read "[Multicenter Evaluation of Survival and Toxicities of Hepatocellular Carcinoma following Radioembolization: Analysis of the RESiN Registry](#)" on the JVIR website.
