

2026 Doctors' Day: Thank You

Dr. Krishna
Nallamshetty

March 30 is National Doctors' Day, and I want to acknowledge the dedication and compassion physicians bring to their work every day in service of patients across the country.

I am particularly grateful for the radiologists I have the privilege to work alongside and learn from. Together, our radiologists form the foundation of our practice and our mission to transform radiology.

While much of your impact happens behind the scenes, the reach of your service extends far beyond the reading room.

 radiology partners®

You serve our communities in countless ways — from participating in international mission trips to places like Ghana and Guyana, to advocating for thoughtful health policy that strengthens patient care nationwide. You invest in your own growth by engaging in leadership programs, becoming stronger physician leaders for your teams, your practices and our specialty. You lead and mentor the next generation of radiologists, shaping the future of our field, and you advance education and clinical excellence through the important work of our Clinical Value Team.

Your clinical expertise, your collaborative partnerships with referring providers and care teams, and your unwavering commitment to high-quality radiology care inspire me every day. It's your work, in all its forms, that brings our mission to life.

While we continue to navigate challenges across our specialty and the broader healthcare landscape, we remain committed to advancing radiology in innovative, meaningful ways — always with our patients at the center of what we do.

Thank you for everything you do, for the many ways you serve, and for the difference you make every day. Happy Doctors' Day!
