

Transforming Radiology™

FOCUSED ON OUR PATIENTS.
LED BY OUR PHYSICIANS.
DRIVEN BY OUR MISSION.

Radiology Partners is a national radiology practice transforming radiology for radiologists, radiology practices, hospitals, health systems, patients and families. We operate differently. Through innovation and collaboration, we strive to reimagine radiology's position in healthcare delivery.

3,600+ Radiologists

50 States

3,300+ Sites

52M Cases per year

Data current as of August 2023

+ PRACTICE VALUES

INTEGRITY

We are truthful with others as well as ourselves. Our words are consistent with our beliefs; our actions are consistent with our words.

TEAMWORK

We work together. The best of us alone cannot exceed the results of all of us together. We support, respect and value each other.

EXCELLENCE

We put forth our personal and professional best. We provide the highest level of care possible and deliver superior experiences for our patients, referring physicians and clients.

SERVICE

We are here to serve. We strive to understand the needs of our clients, especially our patients and referring physicians, and exceed their expectations.

ACCOUNTABILITY

We take responsibility for our actions. We acknowledge that each of us has a role in the success of our practice.

Mission-Driven, Physician-Led

We are committed to living out our five Practice Principles in every move we make; providing the tools and resources for radiology innovation and clinical quality; investing in our team through education and professional development opportunities; and creating important conversations on diversity, equality and inclusion.

WE ARE A PRACTICE NOT A COMPANY

*A big practice, yes.
But a practice, nonetheless.*

ONE PRACTICE LOCALLY LED

*Our mission requires the scale of a national
presence, but healthcare decisions should
be driven by local standards of care.*

PHYSICIAN OWNERSHIP

*More than 50% of RP radiologists
are owners in the practice.*

PATIENTS FIRST

*They are our top priority, followed
by referring physicians, clients,
our practice and then ourselves.*

RADIOLOGY IS A TEAM SPORT

*Collaboration is critical to innovation,
inclusion and, ultimately, advancing
our mission.*
